AVID[®]
EDUCATION

About AVID® Education

From headphones to boom boxes, AVID has your educational audio needs covered! AVID has been manufacturing and supplying headphones along with other audio products for over 50 years. We offer products developed in collaboration with educators to ensure they meet the tough rigors of an educational setting.

AVID offers a great selection of durable products that are perfect for high use areas. Many have replaceable foam earpads or easy to clean vinyl to make reusing them a breeze. We are continually expanding our line and modifying our products based upon what we have learned from educators to keep up with changing demands and uses. All of our educational products are stored in our Rhode Island warehouse which allows us to track our inventory easily and ship quickly after receiving an order.

AVID currently supplies many headphones to schools for educational programs, language labs, theatrical productions, sports teams, and much more. Both public and school libraries have found them to be a valuable tool to pair with their audio books and computer programs, while museums supply visitors with AVID headphones for self-guided tours. AVID offers one on one personal service! Call or email to talk with educational sales representatives that can help you find the product that will best fit your needs.

Headphones

AVID offers headphones for a variety of applications. Our lab headphones are full sized and designed for the rugged use that a computer lab encounters on a daily basis. These headphones are meant to be assigned per computer and used by multiple students in one day. Their vinyl earpads and headbands are easily cleaned by wiping down with a damp disinfecting cloth. The large earpads have extra padding that help block surrounding noises out to aid in concentration while students work as well as keeping the lab quiet. Headphones help students learn at their own pace without being distracted by other students progress.

AVID's personal sized headphones are perfect for 1:1 computing. Assign one headphone to each student so they are prepared when lessons require audio. Students also take better care of headphones they think of as their own. The personal headphones small size is perfect for storage in their desk or locker. The plastic adjustable headband can easily be cleaned with a damp disinfecting wipe and replaceable foam earpads are available for purchase.

Color options not only add style to the labs but they aid in group learning and organization. Break students into groups easily by assigning a different color headphone to each listening center.

AE-807

The AE-807 has the same rugged construction as the AE-808 without the volume control. Just use the volume adjustments on the computer or in the software. The coiled cord stretches to almost 10' when needed and coils back to short for easy storage.

AE-808 USB

This model is the same as our AE-808 headphones with a USB 2.0 plug for superior sound and connectivity. It features a straight cord with in-line volume control.

AE-808

This is the perfect lab headphone! Its ultra-durable construction allow for multiple uses all year long. They easily switch from Stereo to Mono sound and have both plug sizes making it compatible with a variety of equipment. The large, padded cushions surround the ear blocking out distracting surrounding ambient noises allowing the students to concentrate on their work.

Headphones

AE-711

Perfect size to assign one to each student. Students are more careful with headphones when they think of them as their own property. The small size is easy for them to store in their desk or locker.

AE-711VC

This is a lightweight, personal headphone, perfect for audio books and other audio applications. The adjustable headband fits a variety of students and volume control allows them to listen at their own comfortable level.

AE-711V

Like our AE-711 headphone but with vinyl earpads. The vinyl is easy to clean but also provides extra padding to aid in comfort. The earpieces rotate flat for easy storage.

AE-908

This model features superior sound quality and fidelity. It is an excellent choice for music applications. Its extra-long 9' cord allows the user to use a variety of equipment while still plugged into the audio source.

SM-25

The SM-25 is a basic, lab headphone. It is durable enough to assign one to each computer in a lab and be used by multiple students in one day. The padded vinyl headband and earpads are a breeze to clean with a damp disinfecting cloth in between uses. The SM-25 is constructed with a braided nylon cord for durability.

AE-425

This model rests on the ear with the headband going behind the neck rather than over the head to prevent getting tangled in the user's hair. Its lightweight design allows for long periods of use without discomfort.

AE-812

This model features our innovated Automatic Sound Limiting technology. The sound automatically stops at 85dB which is deemed a safe listening level by the American Speech-Language-Hearing Association (ASHA). This prevents students from turning the sound up to unsafe levels and requires no monitoring by the teacher.

FV-060

This is a medium sized headphone that works as a personal headphone or as a lightweight lab headphone. The earpads fit just around the ear and help block our surrounding noises. The earpieces rotate flat making it easy to store in a desk or backpack.

Headsets with Microphones

Microphone headsets are ideal for a variety of classroom computer activities. Having a microphone close to the student's mouth helps the recording to be clear and distinct as well as keeping students' voices down resulting in a quieter lab. Microphones are useful for language learning software, recording podcasts, having student's narrate presentations and many more applications. They are available in a large lab size that is great for multiple uses by multiple students in one day to smaller personal size that students can store themselves.

AE-36

The AE-36 is the perfect match for devices with a single jack such as iPads®, Chromebooks® and more! The AE-36 has a single TRRS 3.5mm 4-conductor plug that operates both the Speakers and the Microphone. The braided nylon cord is resistant to chewing and the earpads are permanently attached to keep them from falling off during use.

TRRS Adapter

Want to use the AE-36 with a computer that has two jacks? That's easy with our TRRS Plug Adaptor. It takes a single TRRS plug and changes it to dual plugs giving you one plug for the microphone and one plug for the speakers. ***This item is sold separately.***

AE-39

The AE-39 has the exact same features as our popular AE-36 Model except it is equipped with a USB plug instead of the single TRRS plug.

SMB-25VC

This full sized headphone has comfortable earpads that surround the ear helping to block out ambient noises in the classroom helping students concentrate on their lesson. The gooseneck microphone can be adjusted as close to the mouth as needed and can be moved up when not in use.

AE-981

The USB plug on the AE-981 makes it a perfect headset for using language learning software. The USB plug offers excellent sound quality and removes the need for software to continually configure the microphone. The earpieces have soft padded earpads and comes with an extra pair of vinyl earpads.

Microphone Headsets

AE-9092

This full sized headset has an in-line microphone and volume control. The microphone is conveniently located high on the cord and close to the user's mouth keeping voices and volume levels in labs quiet. The AE-9092 works great with devices that have a single jack such as iPads®, Chromebooks® and more! The AE-9092 has a single TRRS 3.5mm 4-conductor plug that operates both the Speakers and the Microphone.

AE-350

The AE-350 has Active Noise Cancellation Technology. It uses one AAA battery (not included) to actively block out surrounding noises and make a quiet environment for the user.

CD-858MF

Students want to keep learning and participating with educational games when wearing this PC gaming headset. It has flashing lights and vibration that is powered by the USB plug that encourage the users. The speakers and microphone are powered by dual 3.5mm plugs.

AE-18

This lightweight headset has a fully adjustable microphone and can adjust to fit students from first grade to adult.

AE-711A

Perfect size to assign one to each student. Students are more careful with headphones when they think of them as their own property. The small size is easy for them to store in their desk or locker.

FV-060A

This is a medium sized headphone that works as a personal headphone or as a lightweight lab headphone. The earpads fit just around the ear and help block out surrounding noises. The earpieces rotate flat making it easy to store in a desk or backpack.

AE-711VCA

This is a lightweight, personal headphone, perfect for audio books and other audio applications. The adjustable headband fits a variety of students and volume control allows them to listen at their own comfortable level.

AE-711VA

Like our AE-711 headphone but with vinyl earpads. The vinyl is easy to clean but also provides extra padding to aid in comfort. The earpieces rotate flat for easy storage.

AE-08

This is a great choice as a basic low cost over the head style of headphone.

Earbuds

AVID's earbuds are a great low cost option especially for higher grade levels and adults. Provide one pair per user for various computer based activities such as testing and audio books. Their small size can easily be carried from lab to classroom.

AE-215

This model has soft, flexible silicone eartips that fit comfortably in the ear. This helps block out surrounding noises keeping the user from having to turn the volume up too loud.

AE-SportMic

The AE-SportMic has an inline microphone for voice recognition and features flexible silicone eartips with 3 different sizes to ensure a comfortable fit. It has a single TRRS 3.5mm 4-conductor plug that operates both the speakers and the microphone. The small storage case allows students to take them from class to class.

AE-5

This model is our most basic earbud. It is perfect for testing and other quick uses. It does not have eartips.

JS-75

This model has small, soft foam eartips. It has a 6' cord which can reach even the back of computers.

TT-3

The TT-3 has an attractive two toned silver finish. Each pair is packed in a zip top silver storage bag. Storage bag has a hole at the top making it easy to hang and organize.

DX-992

The DX-992 offers fantastic sound quality and passive noise cancelation with comfortable silicone eartips. This model is available in retail packaging.

AE-151

The AE-151 has a shorter 4' cord. It has soft foam eartips for extra comfort.

Speaker & Player

SP-815

This is great for use with MP3 players, computers, and other audio devices. Charges easily through a computer using the provided USB cable.

BB-992

It has the ability to play CD and MP3 discs, cassettes as well as external devices through its USB, SD, or AUX in jacks. It also has an AM/FM radio, remote control, single headphone jack and built in microphone. It can operate with 8D batteries (not included) or with an AC/DC wall plug.

Jack Box

Create several small learning groups within one classroom with AVID's Jack Boxes. Simply pair a Jack Box with a Boom Box, MP3 player, or other audio device and have 6 or 8 students listen while using headphones. Each Jack Box has both 6.3mm and 3.5mm plugs to be compatible with most devices.

8KP63M

is a mono jack box with eight 6.3mm sockets and volume control.

8KP35S

is a stereo jack box with eight 3.5mm sockets and volume control.

6KP35S

is a stereo jack box with six 3.5mm sockets and volume control.

Infrared headphones have no cords that can tangle or knot saving you time when preparing for the next class. They are perfect for learning in groups. Each transmitter can operate an unlimited amount of headphones within 12' of its line of sight. This makes gathering a group of students around a computer or similar device easy.

Wireless Infrared Headphones

IR-10SET

The set includes 1 IR-10 headphones and 1 IR-10T transmitter. The IR-10 headphones folds to make storing easy. It has padded vinyl earpads, with an on/off switch and volume control on one earpiece. The IR-10T transmitter can be used with any audio source that has a USB port.

IR-10

Extra headphone that can be added to the IR-10SET for multiple users.

IR-20SET4

The set includes 4 IR-20 headphone, 1 IR-50T transmitter and 1 power adaptor. The IR-20 headphone has a headband that adjusts as it is put on for extra comfort. It has an on/off switch and volume control on the earpiece. The transmitter can be used with any source with a 3.5mm socket such as a computer or boom box.

IR-20

Extra headphone that can be added to the IR-20SET for multiple users.

As classroom sizes grow the need to be heard grows as well. AVID's PA System are available in three different sizes to guarantee that all students will hear the lesson without forcing the teacher to strain. The PA-133 and PA-216 units are rechargeable and include an AC/DC wall charger and microphone.

PA Systems

PA-122

With 6 watts of output power the PA-122 is perfect to project your voice in a classroom setting to ensure that even students at the back of the room can hear clearly. Its simple design couldn't be easier to operate – just plug in the included headset and go! The volume control dial is conveniently located on the top of the unit for easy adjusting. It can be worn around the waist or hung from the neck. Operates on AA batteries (included).

Perfect for a class of 20-30 students.

Perfect for a class of 30-40 students.

PA-133

There is no need to repeat yourself when using this model. Not only does it offer 20 watts of output power to keep you from raising your voice but it can also record the lesson onto a flash drive or SD card to be given to students who are absent. It also has the ability to play back audio from a flash drive or SD card and transmit FM radio. It can be clipped onto a belt or waistband or be worn on the provided neck lanyard. It comes with a comfortable headset microphone that is plugged into the unit. It also has the ability to play back audio from a flash drive, SD card, or an external device through the line-in port and transmit FM radio.

PA-216

The PA-216 is a lightweight portable PA system which is great for times when movement is necessary, such as field trips or recess duty. It can be carried by the handle or over the shoulder with the provided strap. It comes with a wireless microphone and has 35 watts of output power. It can also be set on a podium or stage for lectures, speeches and meetings. It also has a USB port for playing back audio from a flash drive and an external device through the line-in port.

Perfect for small gymnasiums, cafeterias, or auditoriums.

Classroom Packs

AVID's Classroom Packs make storing and moving your headphones easy and convenient. Each classroom pack includes our durable, lightweight carrying case and several headphones. The carrying case protects the headphones during storage as well as keeping them clean and ready for use. For more information about the headphones included please refer to pages 2-8.

AVID Warranty Information

AVID LIMITED WARRANTY

AVID products purchased by consumers directly from AVID or an authorized AVID distributor, reseller, carry our limited warranty.

Who is covered:

This warranty is extended only to the original end-use purchaser or the person receiving the product as a gift, and shall not be extended to any other person or transferee.

What is covered/For how long:

AVID warrants that this product, when delivered to you in new condition, in original packaging, from AVID and used in normal conditions, is free from any defects in manufacturing, materials and workmanship for the following periods from the date of retail purchase by the original end-use purchaser:

Multimedia players including CD, MP3, Cassette, Radio, etc. – 1 year after date of purchase

Jack Boxes – 1 year after date of purchase

Headphones and headsets (exclusions below) – 1 year after date of purchase

USB headphones and headsets – 6 months after date of purchase

Personal headphones and headsets (ie AE-711 line, AV-44, AE-812) – 3 months after date of purchase

Disposable headphones and earbuds – only the return policy applies

** Products may be discontinued at any time.*

What is not covered:

This warranty does not cover defects resulting from improper or unreasonable use or maintenance; failure to follow operating instructions; accident; excess moisture; insects; lightning; power surges; connections to improper voltage supply; unauthorized alteration or modification of original condition; damages caused by inadequate packing or shipping procedures; loss of, damage to or corruption of stored data; damages caused by use with other products; product that requires modification or adaptation to enable it to operate in any country other than the country for which it was designed, manufactured, approved and/or authorized, or repair of products damaged by these modifications; and products purchased from unauthorized dealers.

What we will do:

During the warranty period, we will, at our sole option, repair or replace (using new or refurbished replacement parts) any defective parts within a reasonable period of time and free of charge.

What we will not do:

Pay shipping, insurance or transportation charges from you to us, or any import fees, duties and taxes.

What you must do to obtain Limited Warranty Service:

Return product, with proof of purchase, using the following procedures:

1. No returns will be accepted without prior authorization;
2. Contact AVID for specific return and shipping instructions;
3. Label and ship the product, freight prepaid, to the address provided by AVID; and
4. Place any necessary return authorization number prominently on the outside of the carton. Cartons not bearing a return authorization number, where required, will be refused.

Other conditions:

THE PROVISIONS OF THIS LIMITED WARRANTY ARE IN LIEU OF ANY OTHER WARRANTY, WHETHER EXPRESSED OR IMPLIED, WRITTEN OR ORAL, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. AVID'S MAXIMUM LIABILITY SHALL NOT EXCEED THE ACTUAL PURCHASE PRICE PAID BY YOU FOR THE PRODUCT. IN NO EVENT SHALL AVID BE LIABLE FOR LOSS OF, DAMAGE TO OR CORRUPTION OF STORED DATA, OR FOR SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR INDIRECT DAMAGES HOWSOEVER CAUSED INCLUDING WITHOUT LIMITATION THE REPLACEMENT OF EQUIPMENT AND PROPERTY, AND ANY COSTS OF RECOVERING, PROGRAMMING OR REPRODUCING ANY PROGRAM OR DATA STORED IN OR USED WITH YOUR AVID PRODUCT.

Other legal rights:

This limited warranty gives you specific legal rights, and you also may have other rights that vary from state to state or country to country. Some places do not allow limitations on implied warranties or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

AVID RETURN POLICY

All product must be unused in original packaging, in resalable condition and include all components including manuals, cables, earpads, etc within 30 days of purchase. All returns must be authorized by an AVID representative before returned. Please call 1-888-575-AVID to receive a return authorization number that must be included on the outside of each box. All returns must be prepaid and are subject to a 15% restocking fee.
