

Copilot for Microsoft 365 Workshop

The power of everyday AI

In today's dynamic and competitive business environment, organizations will need to leverage the power of AI to enhance their productivity, creativity and innovation. Adopting AI requires careful planning, preparation and readiness to ensure success and ROI, and Copilot for Microsoft 365 is no exception.

Prepare for the future of productivity.

Take the first steps toward helping your organization unleash creativity, unlock productivity and level up skills with Insight's Copilot for Microsoft 365 Workshop. Delivered by our team of Microsoft Modern Work experts, this workshop will provide you with everything you need to understand how Copilot for Microsoft 365 will impact your organization and what you need to do to ensure success.

What to expect

The workshop is delivered over several hours and will provide:

An overview of Copilot for Microsoft 365, including product demos and Microsoft's approach to responsible AI

Identification of key stakeholders and prioritized business scenarios

A review of technical requirements and what's needed to get your organization AI-ready

A recommended roadmap and proposed next steps

An assessment of your organization's Copilot for Microsoft 365 readiness

Outcomes

The outcome of the workshop provides a plan for Copilot for Microsoft 365 that includes a summary of workshop findings, recommendations for implementation based on prioritized business scenarios, potential risks, recommended pilot and adoption approach, and a roadmap with proposed next steps.

Who should attend

Whether your organization is ready to invest in Copilot for Microsoft 365 licensing or is just curious about what this solution can do, this workshop is meant to bring your business together to determine the value of AI in your organization.
